DETAILED ACTION

Double Patenting

1. Claims 1-14 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-5, 9-13 of U.S. Patent No. 6607300 by Kleinerman [hereinafter Patent]. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the Patent include all the limitations claimed in claims 1-14 of the instant application. Particularly, in the claims 1-14 of the instant application, Applicant states that the ratio "varies" (vs. "increases" in the Patent). This limitation does not make the claims of the instant application patentable over the Patent because the term "varies", inherently, covers terms "increases", "decrease", "changes".

Allowable Subject Matter

2. Claims 15-16 are allowed.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited in the PTO-892 and not mentioned above disclose related devices and methods.
